ANDROID APPLICATION-TOAST MESSAGE

AIM:

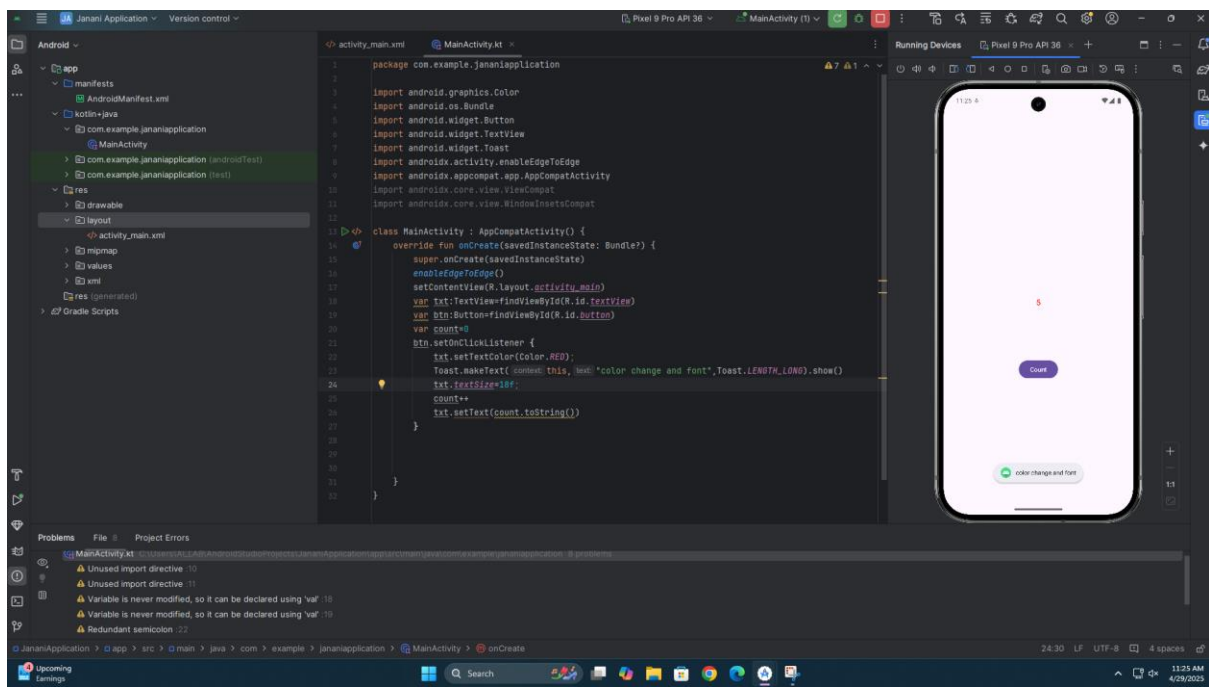

To develop a android application to change font and color of the text and display toast message when the user presses the button.

PROGRAM:

```
but.setOnClickListener {  
    text.setTextColor(Color.RED);  
    Toast.makeText(this, "color change and font", Toast.LENGTH_LONG).show()  
    text.textSize=18f;  
}
```

OUTPUT:

RESULT:

Thus the android application to change font and color of the text and display toast message when the user presses the button has been developed successfully.
