SERVLET PROGRAM -PRINT "HELLO WORLD"

AIM:

To implement servlet program that prints "HELLO WORLD!!!" when accessed through the browser.

PROGRAM:-

HelloWorld.java

```
package com.janani.servlet;
import java.io.IOException;
import java.io.PrintWriter;
import javax.servlet.ServletException;
import javax.servlet.annotation.WebServlet;
import javax.servlet.http.HttpServlet;
import javax.servlet.http.HttpServletRequest;
import javax.servlet.http.HttpServletResponse;
@WebServlet("/HelloWorld")
public class HelloWorld extends HttpServlet {
    private static final long serialVersionUID = 1L;
    public HelloWorld() {
        super();
        // TODO Auto-generated constructor stub
    }
    protected void doGet(HttpServletRequest request, HttpServletResponse
response) throws ServletException, IOException {
        PrintWriter p=response.getWriter();
        p.println("HELLO WORLD!!!");
    }
    protected void doPost(HttpServletRequest request, HttpServletResponse
response) throws ServletException, IOException {
        // TODO Auto-generated method stub
        doGet(request, response);
    }
}
```

```
12 * Servlet implementation class HelloWorld
13 */
14 @WebServlet("/HelloWorld")
15 public class HelloWorld extends HttpServlet {
16     private static final long serialVersionUID = 1L;
17
18     /**
19      * @see HttpServlet#HttpServlet()
20      */
21     public HelloWorld() {
22         super();
23         // TODO Auto-generated constructor stub
24     }
25
26     /**
27      * @see HttpServlet#doGet(HttpServletRequest request, HttpServletResponse response)
28      */
29     protected void doGet(HttpServletRequest request, HttpServletResponse response) throws ServletException, IOException {
30         PrintWriter p=response.getWriter();
31         p.println("HELLO WORLD!!!");
32     }
33
34     /**
35      * @see HttpServlet#doPost(HttpServletRequest request, HttpServletResponse response)
36      */
37     protected void doPost(HttpServletRequest request, HttpServletResponse response) throws ServletException, IOException {
38         // TODO Auto-generated method stub
39         doGet(request, response);
40     }
41 }
42
43
```

OUTPUT:

RESULT:

Thus the servlet program to print “HELLO,WORLD!!!” is implemented successfully.
